THE GLOBAL ECONOMY OVERVIEW

The global economy remains remarkably resilient, with growth holding steady as inflation returns to target. The journey has been eventful, starting with supply-chain disruptions in the aftermath of the pandemic, a Russian-initiated war on Ukraine that triggered a global energy and food crisis, and a considerable surge in inflation, followed by a globally synchronized monetary policy tightening. Yet, despite many gloomy predictions, the world avoided a recession, the banking system proved largely resilient, and major emerging market economies did not suffer sudden stops. Moreover, the inflation surge—despite its severity and the associated cost-of living crisis—did not trigger uncontrolled wage-price spirals (see October 2022 World Economic Outlook). Instead, almost as quickly as global inflation went up, it has been coming down.

On a year-over-year basis, global growth bottomed out at the end of 2022, at 2.3 percent, shortly after median headline inflation peaked at 9.4 percent. According to our latest projections, growth for 2024 and 2025 will hold steady around 3.2 percent, with median headline inflation declining from 2.8 percent at the end of 2024 to 2.4 percent at the end of 2025. Most indicators point to a soft landing. Markets reacted exuberantly to the prospect of central banks exiting from tight monetary policy. Financial conditions eased, equity valuations soared, capital flows to most emerging market economies excluding China have been buoyant, and some low-income countries and frontier economies regained market access (see the April 2024 Global Financial Stability Report).

THE INDIAN ECONOMY OVERVIEW:

Strong economic growth in the first quarter of FY23 helped India overcome the UK to become the fifth-largest economy after it recovered from the COVID-19 pandemic shock. Nominal GDP or GDP at Current Prices in the year 2023-24 is estimated at Rs. 293.90 lakh crores (US$ 3.52 trillion), against the First Revised Estimates (FRE) of GDP for the year 2022-23 of Rs. 269.50 lakh crores (US$ 3.23 trillion). The growth in nominal GDP during 2023-24 is estimated at 9.1% as compared to 14.2% in 2022-23. Strong domestic demand for consumption and investment, along with Government's continued emphasis on capital expenditure are seen as among the key driver of the GDP in the first half of FY24. During the period January-March 2024, India's exports stood at US$ 119.10 billion, with Engineering Goods (25.01%), Petroleum Products (17.88%) and Organic and Inorganic Chemicals (7.65%) being the top three exported commodity. Rising employment and increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months. Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers. The contact-based services sector has demonstrated promise to boost growth by unleashing the pent-up demand. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback. India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships. India's appeal as a destination for investments has grown stronger and more sustainable because of the current period of global unpredictability and volatility, and the record amounts of money raised by India-focused funds in 2022 are evidence of investor faith in the "Invest in India" narrative.

INDUSTRIAL STEEL INDUSTRY OVERVIEW:

1. Introduction
Global Scenario

- In 2023, the world crude steel production reached1,892 million tonnes (MT) as per data released by World Steel

Association. World Steel Association in its Short-Range Outlook, April 2024 forecasts that steel demand will grow by 1.7% in 2024 and reach 1,793.1 MT after contracting by 1.1% in 2023. In 2025, steel demand will see a further increase of 1.2% to 1,815.2 MT.

- India is the second largest producer of crude steel. China was world's largest crude steel producer in 2023 (1,019.1MT) followed by India (140.8MT), Japan (87.0MT) and the USA (80.7MT). (Source: For India is JPC and World Steel Association for others)

- Per capita finished steel consumption in 2022 was 224 kg for world and 649 kg for China. The same for India was 86.7 kg in 2022-23.

Domestic Scenario

- Steel is a de-regulated sector. The Government's role is that of a facilitator which lays down the policy guidelines and establishes the institutional mechanism/structure for creating conducive environment for improving efficiency and performance of the steel sector.

- In this role, the Government has released the National Steel Policy 2017, which has laid down the broad roadmap for encouraging long term growth for the Indian steel industry, both on demand and supply sides, by 2030-31.

- Government of India is implementing a Production-linked Incentive (PLI) Scheme for Specialty Steel. It is expected that the specialty steel production will reach 42 MT by the end of 2026-27.

- India's crude steel capacity was 179.5 mt (provisional) in 2023-24 .

2. Performance of Steel sector

- Production of pig iron, sponge iron and total finished steel (alloy/stainless + non-alloy) are given in table below for last five years and current year:

Table 1: Indian Steel Industry : Production (in Million Tonnes)

Category	2019-20	2020-21	2021-22	2022-23	2023-24*	April-May 2024*

- Performance of Steel sector during 2023-24 has been the best ever of any fiscal year. Cumulative production and consumption of steel during the last five financial years are given in the following table and graph below:

Table 2 : Production and consumption in Million Tonnes

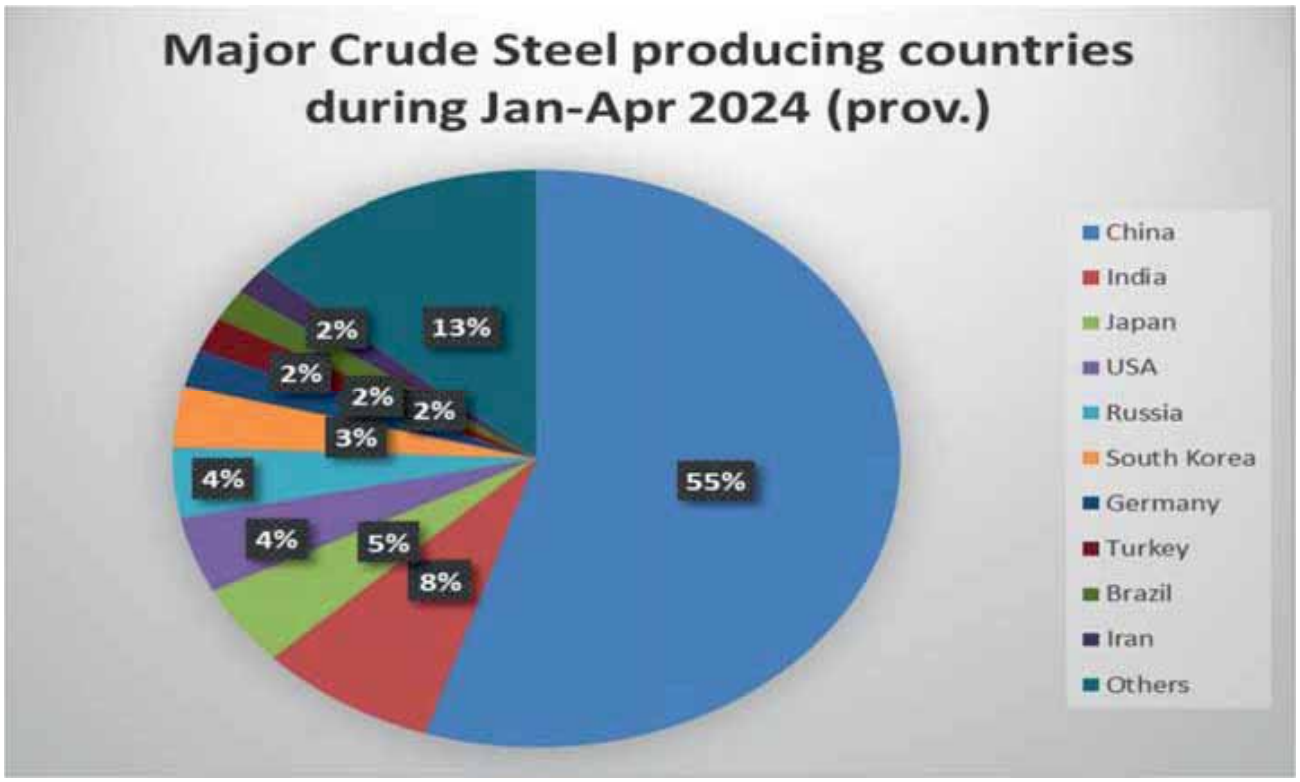
The global production of crude steel declined by 0.9% to 625.4 MT in January-April '24(provisional) against 631.0 MT in January-April'23. Among the top 10 countries, China, Japan, the USA, Russia and South Korea reported fall in crude steel production in January-April 2024. The remaining five countries, including India, reported growth in output. Turkey reported a spectacular 22.1% growth in production. It was followed by India which showed a 8.5% growth. Country wise share of crude steel production in January-April, 2024 may be seen from the following graph:



3. International Trade of Steel

- During last five years, India was a net exporter of total finished steel in all the years barring only 2023-24 and April-May 2024 when it turned net importer. The Table below contains the details:

Table 3 : Exports and Imports (Th. Tonnes)

4. Important Policies and initiatives of Governments of India

- Steel is a de-regulated sector, Government acts as a facilitator, by creating conclusive policy environment for development of the steel sector. Government of India has notified National Steel Policy, 2017 which envisages development of a technologically advanced and globally competitive steel industry that provides environment for attaining self-sufficiency in steel production by providing policy support and guidance to steel producers. National Steel Policy covers all aspects of steel sector such as steel demand, steel capacity, raw material security, infrastructure and logistics, Research & Development (R&D) and energy efficiency. Overall projections of domestic crude steel capacity, production and per capita finished steel consumption value envisaged in the National Steel Policy (NSP) 2017 are shown below: -

S. No.	Paramater	Projection (2030-31)
1	Total Crude Steel Capacity	300 mt
2	Total Crude Steel demand/Production	255 mt
3	Per Capita Finished Steel Consumption in kgs	158 mt

Sources: National Steel Policy (NSP) 2017

- Production Linked Incentive (PLI)Scheme for Specialty Steel was approved by the Union Cabinet on 22.07.2021, with total financial outlay of Rs.6,322 crore to promote the manufacturing of 'Specialty Steel' within the country by attracting capital investment, generate employment and promote technology up-gradation in the steel sector. The Scheme was notified in the official Gazette on 29.7.2021 and detailed Scheme guidelines were published on 20.10.2021. of 27,980 thousand tonnes. The applications were scrutinized by a selection committee consisting of members from NITI Aayog, DPIIT and Ministry of Steel. A total of 67 applications from 30 companies were recommended by the selection committee with total investment commitment of Rs.42,493 crore and capacity commitment of 26,750 thousand tonne. On 17.03.2023, Ministry of Steel signed Memorandum of Understanding (MoU) with the 27 selected companies having 57 applications. This Scheme will attract total investment commitment of Rs.29,530 crore with capacity addition of 24,780 thousand tonnes.

- Steel Quality Control Order (QCO): Ministry of Steel has introduced Steel Quality Control Order (QCO) thereby banning sub-standard/ defective steel products both from domestic producers & imports to ensure the availability of quality steel to the industry, users and public at large. As per the Order, it is ensured that only quality steel conforming to the relevant BIS standards are made available to the end users. As on date 145 Indian Standards have been notified under the Quality Control Order covering carbon steel, alloy steel and stainless steel. Out of these, QCO on 144 Indian Standards have been enforced.
- Research & Development (R&D): Ministry of Steel is providing financial assistance for pursuing Research & Development to address the technological challenges faced by the Iron & Steel sector. In this regard, in May 2023, Ministry of Steel has sought R&D Project proposals in joint collaborative mode from reputed Academic Institutions, Research Laboratories and Steel Companies for pursuing R&D projects on the identified thrust areas, for providing financial assistance under the R&D Scheme for the Financial Year 2023-24 . The thrust areas for providing financial assistance under the R&D Scheme include development of new alternate processes & technologies to address the burning issues faced by the Iron & Steel Sector such as climate change (green steel production, H2 based steel production, CCUS etc.), waste utilization, resource efficiency, etc. The details of the R&D Scheme including guidelines for financial support and an indicative list of R&D projects that can be taken up to address common issues of the Iron & Steel Sector, have been uploaded on Ministry of Steel's website in May 2023 .
- Domestically Manufactured Iron & Steel Products (DMI&SP) Policy for promoting procurement of Made in India Steel by government and public sector projects.
- Notification of Steel Scrap Recycling Policy to enhance the availability of domestically generated scrap.

OPPORTUNITIES AND THREATS:

OPPORTUNITIES

- Stainless steel is a versatile material resistant to corrosion and high temperatures. This makes it ideal for various applications, including in the oil and gas, chemical and food processing industries. The demand for stainless steel pipes and tubes is expected to grow in the coming years, which is a positive sign for Prakash Steelage.
- Governments around the world are investing heavily in infrastructure development projects. This creates a demand for pipes and tubes for water treatment plants, power plants and other infrastructure projects.
- Removal of export duty on steel is seen as a positive. Steel companies can sell their products overseas at competitive prices without the export duty, potentially boosting their profits.

THREATS

- Prakash Steelage supplies a variety of industries, which can mitigate risk somewhat, but a downturn in any one sector, like power or oil and gas, could still hurt sales.

- The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon.

- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

a. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

b. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls,

c. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

d. Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

e. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the Statement represents the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure A to the Independent Auditors' Report

Referred to in paragraph 1(h) under the heading 'Report on other Legal and Regulatory Requirements' of the Independent Auditors' Report of even date to the members of Prakash Steelage Limited on the financial statements for the year ended March 31, 2024:

Report on the Internal Financial Controls with reference to Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Act

We have audited the internal financial controls with reference to financial statements of Prakash Steelage Limited ("the Company") as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (*the Guidance Note*) issued by the Institute of Chartered Accountants of India("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls with reference to financial statement, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial

statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2024, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

2 SIGNIFICANT ACCOUNTING POLICIES

2.01 Statement of Compliance :

These financial statements of the Company comprising of Balance Sheet, Statement of Profit and Loss, Statement of changes in Equity and Cash Flow Statement together with the notes have been prepared in accordance with Indian Accounting Standards notified under the Companies (Indian Accounting Standards) Rules, 2015 ("Ind AS") as amended by the Companies (Indian Accounting Standards) Rules, 2016, The Companies (Indian Accounting Standards) Rules, 2017 and other relevant provisions of the Companies Act, 2013.

2.02 Basis of Preparation and Presentation :

The Financial Statements have been prepared on the historical cost basis except for defined benefit plans which are measured at fair value at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes in to account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability if market participants would take those characteristics into account when pricing the assets or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
Level 2 inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
Level 3 inputs are unobservable inputs for the asset or liability.

The financial statements are presented in Indian currency (INR) which is the Company's functional and presentation currency.

The financial statements were approved by the Board of Directors on 28 May, 2024.

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III (Division II) to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current-non current classification of assets and liabilities.

2.03 Revenue Recognition :

Pursuant to notification issued by Ministry of Corporate Affairs (MCA) on March 28, 2018, the Company has adopted Ind AS 115 on "Revenue from Contracts with customer" w.e.f. accounting period on and after April 1, 2018 using full retrospective approach which do not have material impact on the financial statement of the company.

a) Revenue from sale of goods is recognised when the following conditions are satisfied.
   i) The Company has transferred the significant risks and rewards of ownership of the goods to the buyer which generally coincides when the goods are despatched in accordance with the terms of sale;
   ii) The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
   iii) The amount of revenue can be measured reliably;
   iv) It is probable that the economic benefits associated with the transaction will flow to the Company;
   v) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

b) Export Incentive/ benefit have been recognised at the time of making the export sales and the same is valued on estimated monetary benefits receivable there of. It is certain to receive the same.

c) Job work income is recognized, net of Goods and Service tax (GST), when related services are provided.

2.04 Other Income:
Interest income is recognised on accrual basis.

2.05 Purchases
Purchase including import purchases are recognized net of refundable duties and taxes at the time of receipt of goods. Refundable duties and taxes on purchase of raw materials, other eligible inputs and capital goods are adjusted against duties and taxes payable. The unadjusted credits of such duties and taxes are shown under the head other current/ non-current assets.

2.06 Property, Plant and Equipment:
Property, plant and equipment is stated at acquisition cost inclusive of expenses directly attributable to acquisition of such assets net of accumulated depreciation, refundable duties and taxes and accumulated impairment losses, if any. **Subsequent costs** are included in the asset's carrying amount or recognised as asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred.

Gains or Losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of Profit and Loss.

The management's estimate of useful lives are in accordance with Schedule II to the Companies Act, 2013. Depreciation on fixed assets is provided on Written Down Value (WDV) method except for fixed assets pertaining to umbergaon unit transferred to Silvasa Unit where the depreciation is chagred on SLM basis. The useful life, residual value and the depreciation method are reviewed atleast at each financial year end and adjusted prospectively.

Capital Work in Progress/ intangible assets under development are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing costs.

2.07 Intangible Assets:
Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives. The amortisation period and amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

2.08 Impairment of assets:
Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the Statement of Profit and Loss.

When an impairment loss subsequently reverses, the carrying amount of the asset or a cash-generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-

generating unit) earlier.

2.09 Financial instruments:

1. Initial recognition and measurement

Financial assets and/or financial liabilities are recognised when the Company becomes party to a contract embodying the related financial instruments. All financial assets, financial liabilities are initially measured at fair value. Transaction costs that are attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from as the case may be, the fair value of such assets or liabilities, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2. Financial assets:

Classification and subsequent measurement of financial assets:

a) Classification of financial assets:

(i) The Company classifies its financial assets in the following measurement categories:
- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

(ii) The classification is done depending upon the Company's business model for managing the financial assets and the contractual terms of the cash flows.

(iii) For investments in debt instruments, this will depend on the business model in which the investment is held.

(iv) The Company reclassifies debt investments when and only when its business model for managing those assets changes.

b) Subsequent Measurement

(i) Debt instruments:

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

(1) Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(2) Financial assets at fair value through other comprehensive income (FVTOCI)

Financial assets are subsequently measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

(3) Financial assets at fair value through profit or loss (FVTPL)

Financial assets are subsequently measured at fair value through profit or loss unless it is measured at amortised cost or fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

(ii) Equity instruments :

The Company subsequently measures all equity investments at fair value. There are two measurement categories into which the Company classifies its equity instruments:

Investments in equity instruments at FVTPL:

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for equity instruments which are not held for trading.

Investments in equity instruments at FVTOCI:

On initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income. This election is not permitted if the

equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the reserve for 'equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to Statement of Profit and Loss on disposal of the investments.

c) Impairment of financial assets:
The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset. For trade receivables, the Company measures the loss allowance at an amount equal to lifetime expected credit losses. Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

d) Derecognition of financial assets:
A financial asset is primarily derecognised when:
1. the right to receive cash flows from the asset has expired, or
2. the Company has transferred its rights to receive cash flows from the asset; and
   (a) the Company has transferred substantially all the risks and rewards of the asset, or
   (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety (other than investments in equity instruments at FVOCI), the differences between the carrying amounts measured at the date of derecognition and the consideration received is recognised in the Statement of Profit and Loss.

3. Financial liabilities and equity instruments
Classification as debt or equity
Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments
An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instrument is recognised and deducted directly in equity. No gain or loss is recognised in the Statement of Profit and Loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial Liabilities
Classification and subsequent measurement
The Company's financial liabilities include trade and other payables, loans and borrowings and derivative financial instruments. Subsequent measurement of financial liabilities depends on their classification as fair value through Profit and loss or at amortized cost. All changes in fair value of financial liabilities classified as FVTPL are recognized in the Statement of Profit and Loss. Amortised cost category is applicable to loans and borrowings, trade and other payables. After initial recognition the financial liabilities are measured at amortised cost using the Effective Interest Rate method.

Derecognition
A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. Gains and losses are recognized in profit and loss when the liabilities are derecognized.

Offsetting of financial instruments
Financial assets and financial liabilities are offset and presented on net basis in the Balance Sheet when there is a currently enforceable legal right to offset the recognised amounts and there is an intention either to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

2.10 Inventories:
i) Raw materials have been valued at lower of cost or net realisable value based upon FIFO method except where the material is specifically identifiable.

ii) Work in Progress has been valued on Cost of Raw-material and other direct costs depending upon the stage of

completion in general.

iii) Finished goods and trading stocks have been valued at lower of costs or net realisable value based upon FIFO method except where the finished goods are specifically identifiable.

iv) Scraps, defectives and inferior production have been valued at net realisable value.

v) Stores, spares and consumables have been valued at lower of cost or net realisable value.

Cost/Rate considered above for valuation of inventory is exclusive of Cenvat, refundable CVD and GST component and inclusive of other direct cost incurred for acquiring the respective material.

2.11 Foreign currencies:
Items included in the financial statements of the Company are recorded using the currency of the primary economic environment (INR) in which the Company operates (the 'functional currency').

2.12 Employee Benefits:
Retirement benefit costs and termination benefits:
Defined Contribution Plans
Payment to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

Contributions to Provident Fund and Employees State Insurance Corporation, which are defined contribution plans, are made as required by the statute and expensed in the Statement of profit and loss.

Defined Benefit Plans
For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement comprising actuarial gains and losses and the effect of the changes to the return of plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in the other comprehensive income is reflected immediately in retained earnings and is not reclassified to Statement of Profit and Loss. Past service cost is recognised in Statement of Profit and Loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the defined benefit liability or asset. Defined benefit costs are categorised as follows:
• service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
• net interest expense or income; and
• remeasurement

The Company presents the first two components of defined benefit costs in the Statement of Profit and Loss in the line item "Employee benefits expense". Curtailment gains and losses are accounted for as past service cost.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for the termination benefit is recognized at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognizes any related restructuring costs.

Short-term and other long-term employee benefits:
Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange of related service.

Liabilities recognized in respect of other long-term employee benefits are measured at present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employee upto the reporting date.

2.13 Finance Costs:
(a) Borrowing costs that are attributable to the acquisition, construction, or production of a qualifying asset are capitalised as a part of the cost of such asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time (generally over twelve months) to get ready for

its intended use or sale.
(b) All other borrowing costs are recognised as expense in the period in which they are incurred.

2.14 Taxation:
Income Tax expense represents the sum of the tax currently payable and deferred tax.

Current tax
Current tax is measured at the amount of tax expected to be payable on the taxable income for the year.

Deferred tax
Deferred tax recognised on temporary differences between the carrying amounts of assets and liabilities in the Company's financial statements and the corresponding tax bases used in computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences.

Deferred tax assets including Minimum Alternate Tax (MAT) are generally recognised for all taxable temporary differences to the extent that is probable that taxable profits will be available against which those deductible temporary differences can be utilised. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

Deferred tax assets relating to unabsorbed depreciation/business losses/losses under the head “capital gains” are recognised and carried forward to the extent of available taxable temporary differences or where there is convincing other evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Deferred tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current Tax Assets and Current Tax Liabilities are offset when there is a legally enforceable right to set-off the recognised amounts and there is an intention to settle the asset and liability on a net basis. Deferred Tax Assets and Deferred Tax Liability are offset when they relate to the same governing taxation laws.

Current and Deferred tax is recognised in Statement of Profit and Loss, except when it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.15 Provisions, Contingent Liabilities and Contingent Assets:
Provisions : Provisions are recognised when there is a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured using the cash flows estimated to settle the present obligation at the Balance sheet date.

Contingent Liabilities : Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent Assets : Contingent assets are disclosed, where an inflow of economic benefits is probable.

2.16 Cash and cash equivalents:
Cash and Cash equivalents include cash, cheques on hand, cash at bank and short term deposits with banks having original maturity of three months or less, which are subject to insignificant risk of changes in value.

2.17 Statement of Cash Flows:
Cash flows are reported using the indirect method whereby profit / (loss) is adjusted for the effects of transactions of

non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are seggregated based on the available information.

2.18 Dividend to equity shareholders:
Dividend to equity shareholders is recognised as a liability and deducted from shareholders' equity, in the period in which the dividends are approved by the equity shareholders in the general meeting.

2.19 Earnings per Share:
Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

2.20 Critical accounting judgements and key sources of estimation uncertainty:
The preparation of financial statements in conformity with Ind AS requires that the management of the Company makes judgements, estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. The judgements, estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to significant accounting estimates include useful lives and impairment of property, plant and equipment, allowance for doubtful debts/advances, deferred tax assets, future obligations in respect of retirement benefit plans, expected cost of completion of contracts, allowances for inventories, etc. Difference, if any, between the actual results and estimates is recognised in the period in which the results are known.

(i) Useful lives and Impairment of property, plant and equipment
The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This re-assessment may result in change in depreciation expense in future periods.

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset.

(ii) Allowance for doubtful debts/advances
When determining the lifetime expected credit losses for trade receivables, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and credit assessment and including forward-looking information. Refer Note 9 (i).

(iii) Deferred tax assets
Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits. The amount of total deferred tax assets could change if estimates of projected future taxable income or if tax regulations undergo a change.

(iv) Employee Benefit Obligations
Employee benefit obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, employee benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(v) Allowance for Inventories
An inventory provision is recognised for cases where the realisable value is estimated to be lower than the inventory carrying value. The inventory provision is estimated taking into account various factors, including prevailing sales prices of inventory item and losses associated with obsolete / non-moving inventory items.
